New Source Review newspaper advertisements for construction permit applications, July 8, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: July 6, July 7, or July 8, 2004. Public notices are generally published every two weeks. The previous publication of public notices was June 22-24, 2004.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

FIRST APPLICANT

The first applicant is <u>Hawkins Hotmix Products</u> with a mailing address of <u>P.O. Box 292</u>, <u>Wartrace, TN 37183</u>. They seek to obtain an air contaminant permit (Division identification number: <u>02-0109-01/57393</u>) for construction of a <u>Batch Asphalt Plant</u> on <u>Squire Hall Road, Shelbyville, TN 37160</u>. This proposed operation would consist of a batch mixer, asphalt cement storage, crushed aggregate, and associated equipment used to produce hot mix asphalt. Number 2 fuel oil would be used as fuel. A baghouse would be used for pollution control of particulates (TSP). There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

SECOND APPLICANT

The second applicant is Wright Paving Contractors, Inc. with a mailing address of 372 Shelbyville Hwy., Fayetteville, TN 37334. They seek to obtain an air contaminant permit (Division identification number: 02-0110-01/57415) to construct a Portable Asphalt Plant at 96 L. Fisher Road, Shelbyville, TN 37334. This proposed operation would consist of a 300 ton per hour portable drum mix asphalt plant. A baghouse and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Benjamin is the assigned Division person.

FIRST APPLICANT

The first applicant is <u>Sara Lee Foods - Newbern</u> with a mailing address of <u>2000 Biffle Road</u>, <u>Newbern, TN 38059</u>. They seek to obtain air contaminant permits for modification of air contaminant sources located at <u>2000 Biffle</u> Road, Newbern, TN 38059, as follows:

- (1) <u>Boiler Operation</u> (Division identification number: <u>23-0101-02/57325</u>). This existing operation consists of a 10.46 MMBtu/hr Cleaver Brooks CB Package Boiler. The requested modification is to change the primary fuel type from natural gas to liquid propane. Natural gas would remain the backup fuel. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted from this source. Mr. J. Attar is the assigned Division person.
- (2) <u>Water Heater</u> (Division identification number: <u>23-0101-03/57326</u>). This existing operation consists of a 15 MMBtu/hr Kemco TE 100 Water Heater with Maxon Model 400 Overpak gas burner. The requested modification is to change the primary fuel type from natural gas to liquid propane. Natural gas would remain the backup fuel. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted from this source. Mr. J. Attar is the assigned Division person.

SECOND APPLICANT

They seek to obtain an air contaminant permit (Division identification number: 23-0090-06/57403) for modification of a <u>Boiler Operation</u> located at <u>the same address</u>. This existing operation consists of equipment used to produce hose. The requested modification is to increase the allowable usage limit of the existing boiler. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants emitted from this source would increase. Mr. P. Hendricks is the assigned Division person.

For the Dyer County "State Gazette"--published once on or before Thursday, July 8, 2004.

The applicant is <u>Jones Fiber Products</u>, <u>Inc.</u> with a mailing address of <u>P.O. Box 1195</u>, <u>Morristown, TN 37816</u>. They seek to obtain an air contaminant permit (Division identification number: <u>32-0213-02/57323</u>) for construction of a <u>Thermal Bonding Oven</u> at <u>134 Pope Road</u>, <u>Morristown, TN 37813</u>. This proposed operation would consist of blending hoppers, garnets, lappers, a thermofusion oven, and associated equipment used to produce cotton batting. Natural gas would be used as fuel for the oven. A drum filter, roll-up filter, and a high temperature fabric filter would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. D. Gosslee is the assigned Division person.

For the Hamblen County "Citizen Tribune"--published once on or before Thursday, July 8, 2004.

The applicant is <u>Foam Fabricators</u>, <u>Inc.</u> with a mailing address of <u>24 College Park Cove</u>, <u>Jackson</u>, <u>TN 38301</u>. They seek to obtain an air contaminant permit (Division identification number: <u>57-0221-01/57264</u>) for modification of a <u>Polystyrene Expansion/Molding Operation</u> located at <u>the same address</u>. This existing operation consists of pre-expanders, intermediate storage bins, molding presses, and associated equipment used to produce fabricated foam products. The requested modification is to begin using a new type of raw material. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. J. Fuss is the assigned Division person.

The applicant is <u>Kenco Plastics</u>, <u>Inc.</u> with a mailing address of <u>1410 Higgs Road</u>, <u>Lewisburg</u>, <u>TN 37091</u>. They seek to obtain an air contaminant permit (Division identification number: <u>59-0093-01/57411</u>) for construction of a <u>Fiberglass Production Operation</u> at <u>1410 Higgs Road</u>, <u>Lewisburg</u>, <u>TN 37091</u>. This proposed operation would consist of a spray booth to spray gelcoat and laminate resin in molds for the fabrication of fiberglass building utility shelters. The spray booth would use filters to control particulate matter from overspray. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. G. Latif is the assigned Division person.

For the Marshall County "Lewisburg Tribune"--published once on or before Thursday, July 8, 2004.
